Redefining Website Development

Entirely through AI

Building custom Website's have never been so easy! Create and expand on 100+ Custom Templates built specifically for each industry whether that be DeFi Projects, Tech Startup's, E-Commerce, the list goes on.

Our Telegram Bot has a seamless UI, providing a step-by-step process for you to chose the design of your website. However, our AI powered bot not only builds a completely custom template, but also integrates GPT for content generation, slogans and page content so your time is completely conserved.

Developing can be expensive, WebsiteAI ensures 0 financial spend when building your dream website so you can save costs and budget elsewhere. Aside from a fully developed website, it's also important to have SEO implementation to maximise website/user clicks. WebAI also provides a fully in-built SEO protocol based around what your product is showcasing. {Learn more through the premium features}

WEBGPT

WEBGPT is Website AI's brand new conversational AI tool which assists in the entire process of Website Creation. Use specific prompts to understand how to advance Websites, integrate images directly & receive feedback: E.G If the website is SEO friendly.

WEBGPT will also be the stepping stone into Website Creation being entirely AI generated within our next update. As more users use WEBGPT, the AI will learn from each interaction, making it more powerful for when we release AI generated Websites.

Examples of prompts with WEBGPT

/feedback <image>:

Description: "Upload a screenshot of your website with '/feedback' as the caption to receive expert AI analysis and practical design feedback. Ideal for enhancing the visual appeal and user experience of your site."

Bot Update

websiteai.io

/ask <prompt>:

Description: "Have web development questions or need advice? Type '/ask' followed by your query to tap into our AI's vast knowledge on web design, coding, best practices, and more. Get insights and solutions in an instant!"

/image <prompt>:

Description: "Need a custom image for your website or project? Use '/image' followed by a descriptive prompt to harness AI-powered creativity. Whether it's a logo, banner, or illustration, receive a unique image tailored to your needs."

Once your website is ready, download the full source code for customization.

#6

Custom Styling

Future updates will allow you to modify your website's theme with a click.

Revenue Sharing

Our brand new Token Utility

Revenue Sharing

For verified holders

Our revenue sharing program is **NOW ACTIVE!**

To participate, simply verify your eligibility within the bot.
(Needing a minimum of 0.1% \$WEBAI token holding)

📊 Revenue Share Stats 📊

✅ Total Verified Users: **100**

💰 Total Paid: **7.95 ETH**

How does it work?

We will charge users \$10 per site they create, all these funds will be collected into the `webairevenue.eth` wallet, then each week on Friday 100% of the funds from this wallet will be distributed to all \$WEBAI holders.

These holders must have their wallet verified inside the bot or you won't be part of the distribution.

A new menu has been added to show your current earning stats and how much is in the revenue wallet.

Staking Dapp

#2 Token Utility

High APY Staking Dapp

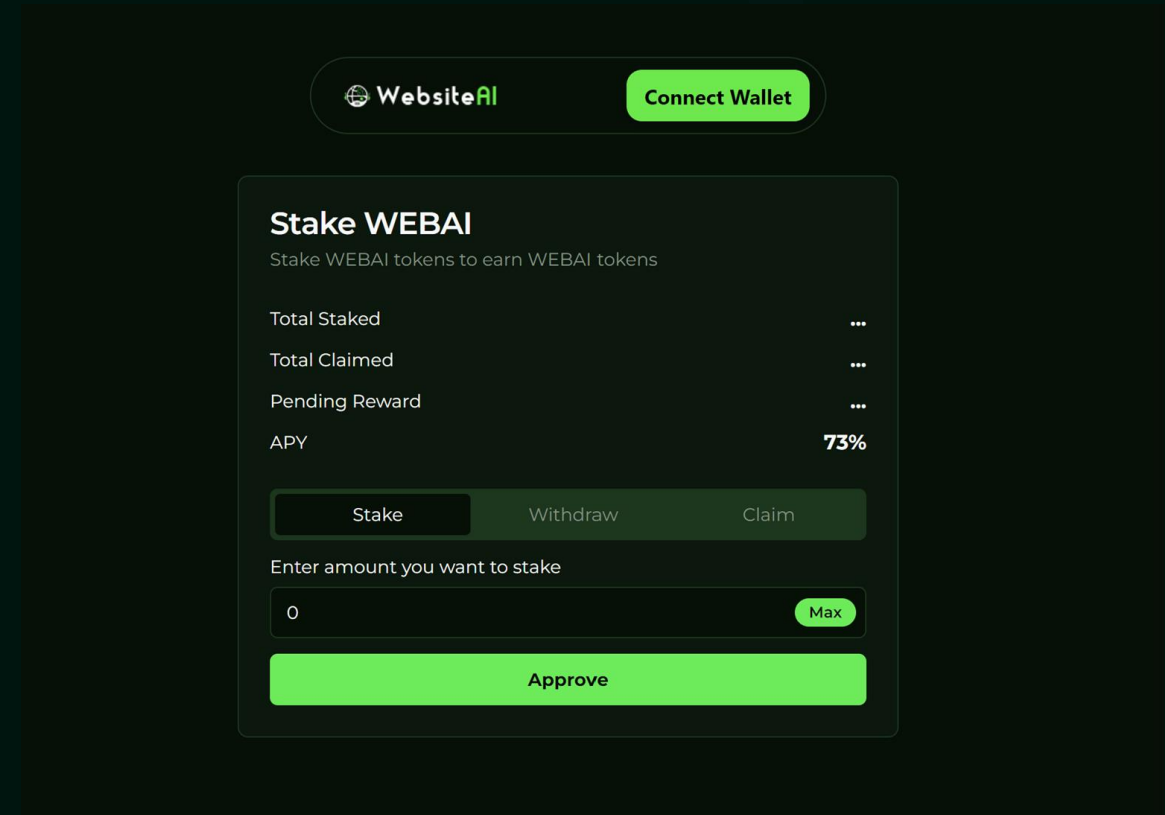

Earn 0.2% APY per day!

Passively earn by staking your tokens within our brand new Staking Dapp.

- Staking Fee: 0%

- Unstaking Fee: 2%

- 💎 Total Staked Tokens: 422428.613043553 WEBAI
- 🇺🇸 Total Value Locked: \$5432431.96 USD
- 📈 Total Staked Percentage: 42.24% of Total Supply
